Profile

Full Stack Developer (MERN) with hands-on experience in building scalable web applications using React.js, Node.js, Express.js, and MongoDB. Skilled in REST API development, authentication (JWT), and responsive UI design. Seeking an entry-level software developer role.

Experience

MERN Stack Trainee, Regex Software 2025 – 2025
Built full-stack apps during intensive training program Jaipur

Education

Bachelor of Technology in Electronics and communication and Engineering, 11/2022 – 08/2026
SKIT College (Rajasthan Technical University) Jaipur, India

Skills

Languages

- JavaScript
- Python
- C/C++

Backend

- Node.js
- Express.js
- REST APIs

Frontend

- HTML
- CSS
- JavaScript
- React.js
- Tailwind CSS

Database

MongoDB

Tools

- Git
- GitHub
- VS Code

Projects

SkyLens - Weather Dashboard, *React.js, Tailwind CSS, Open-Meteo API, Recharts*

- Developed a real-time weather app with live API data covering temperature, humidity, UV index, air quality & hourly forecasts with Glassmorphism UI
- Integrated AQI monitoring (PM2.5, PM10, CO, NO2), °C/°F toggle, city search with geolocation, and 2-year historical chart analysis

TaskFlow - Full Stack Task Management App, *React.js, Node.js, Express.js, MongoDB, JWT*

- Built a task management web app using React and MERN stack
- Created login/signup with JWT authentication
- Developed features to add, update, delete, and view tasks
- Designed responsive UI using React + Tailwind CSS
- Tech: React.js, Node.js, Express.js, MongoDB

No-Code Dynamic Form Builder | MERN Stack, *Tech Stack: React.js | Node.js | Express.js | MongoDB | JWT | REST API*

- Developed a No-Code Dynamic Form Builder using the MERN Stack, enabling users to create and publish forms without coding.
- Implemented dynamic form rendering from database configurations, real-time response collection, CSV export, authentication (JWT), analytics dashboard, file uploads, and drag-and-drop functionality.
- Built and deployed a scalable full-stack application with REST APIs and MongoDB.

HR Management System (FULL STACK), *React.js, Node.js, Express.js, MongoDB, JWT, Tailwind CSS*

- Developed a full-stack HR management system to manage employee leave requests and attendance tracking
- Implemented login/ signup functionality with JWT-based authentication and role-based access (Admin & Employee)
- Built features for applying leave, approving/ rejecting requests, and tracking leave history
- Created attendance system with daily marking and validation rules (one entry per day, no future dates)
- Designed admin dashboard to monitor employee data, manage leave requests, and view attendance records
- Integrated leave balance tracking with automatic updates after approval
- Developed responsive UI using React.js and Tailwind CSS with clean user experience

Certificates

MERN Stack Training

Completion Certificate from Regex Software, Jaipur
